USSU Statement on V.P External Affairs Resignation

Just prior to the Christmas break Vice-President External Affairs Nicole Kenney announced her resignation from the Executive of the University of Saskatchewan Students' Union. Noting that she "thoroughly enjoyed serving and advocating on behalf of undergraduate students at the University of Saskatchewan," VP Kenney went on to say that "The connections I have made with the Saskatoon community during my time at the USSU have inspired me to devote my life to activism. Through nineteen months of public service, I have gained tools to create meaningful social and environmental changes in the world and I am excited by the various avenues to do so." The remaining Executive and staff wish Nicole all the very best in her new ventures.

The Executive has divided the responsibilities of the External portfolio among themselves. Please contact USSU President Josie Steeves for further information at president@ussu.ca.
